Design Management Fundamentals

Haskell Office Building

111 Riverside Avenue

Jacksonville, FL 32202

08:00 AM - 05:00 PM EST

Design Management Fundamentals: Effective integration of the distinctly different design and construction processes is a critical management responsibility for a successful design-build project. This new course, along with DBIA's Design Management Guide, explores the fundamental aspect associated with successful management of design within an integrated delivery framework.

(8 CEUs)

The purpose of this course is to provide a foundation of the practical tools, information and advice needed to successfully fulfill the obligations of the role of design manager on a design-build project.

This course is integrated with The Design Management Guide for the Design-Build Environment Version 1.0.
