IPA 2019 Webinar Series

1.0 Hour of Category I CE credit

Wednesday, April 17th, 2019 at Noon

Registrants will receive further information on registering with GoToWebinar for the presentation.

Child Mental Health Issues: A Model of Combined Treatment Methods

The session offers a guide to combined and integrated treatment of childhood disorders including ADHD, OCD, ASD and conduct issues. A growing body of evidence from neuroscience and cognitive psychology will be highlighted. A practitioner's guide to best practices for conceptualizing and implementing treatment will include psychosocial and psychopharmacological options.

Learning Objectives

By completing this program, participants will able to:

- 1. Identify key symptoms of childhood disorders using DSM-V criteria.*
- 2. Compare and contrast evidence-based psychosocial and psychopharmacological treatment options for youth with mental health issues within a family, cultural and social context.*
- 3. Develop a practitioner's guide to selecting the focus of treatment and treatment options for children with mental health issues and their families.*

Presenter: Sandra Burkhardt, Ph.D, ABPP

Sandra Burkhardt, Ph.D., ABPP is a clinical psychologist who specializes in the diagnosis and treatment of Autism Spectrum Disorder. She is Board Certified in Clinical Child and Adolescent Psychology and a Fellow of the Academy of Clinical Psychology. She is Professor Emerita of St. Xavier University in Chicago.
