MD CYBER MEETUP

7142 Columbia Gateway Dr

Columbia, MD 21046

05:30 PM - 07:30 PM EST

This event was originally scheduled for Tuesday, December 17th and has been rescheduled to Thursday, January 9th.

Are you currently hiring for cybersecurity positions in Maryland? Do you struggle to find qualified candidates for your cybersecurity positions? Do you know that Maryland has valuable, innovative and nationally-unique cybersecurity workforce resources – including apprenticeship and training programs that could be of benefit to your company? Join us January 9 as we introduce some of them to you via interactive “flash talk” presentations; each presenter will have a few minutes to showcase their cybersecurity workforce training offerings followed by audience Q&A. Lite fare food, beer & wine will be provided.

Presenters include:

MD Department of Labor - presenting on the Maryland Apprenticeship and Training Program (MATP)

UMBC Training Centers - presenting on their Certified Cyber Analyst/Operator Apprenticeship

Point3 Security - presenting on their gamified training platform, ESCALATE

YearUp Baltimore - presenting on how to hire a YearUp graduate

There are many other valuable education and training programs within the State of Maryland. To showcase these resources, CAMI will be offering a Maryland Workforce Resources handout at the event for attendees. To be included in this handout, fill out our survey [here](#).

This program brought to you with support from our Program Partner MD Department of Commerce.
