October 19, 2026

**Progressive Design-Build Done Right™**  
08:00 AM - 05:00 PM EST  
Education Department,  
education@dbia.org  
*Progressive Design-Build Done Right(TM)*

*The flexibility of design-build project delivery allows an Owner to choose among various approaches for procurement and contracting. In progressive design-build (PDB) the Owner “progresses” towards a design and contract price with the team, making it an increasingly popular delivery option. Using real-world case studies of exceptional outcomes, taught by some of the nation’s most experienced PDB Owners and practitioners, this course will help participants:*

*Gain insight into the flexibility of design-build project delivery and the trade-offs, key considerations and opportunities of the various procurement approaches.*

*Understand how Design-Build Done Right® best practices and principles apply to Progressive Design-Build (PDB).*

*Take a deep dive into PDB, including a close look at what it means, key characteristics and how to determine if PDB is right for a project.*

*Learn key elements of successful procurement, contracting and post-award execution for PDB.*

October 22, 2026
