Research and Innovation Committee Webinar: Great Lakes ReNEW: Resource Recovery and E
IWEA

12:00 PM - 01:00 PM CST

Presenter: Melissa Pierce, Technical Program Director at Current

Description: Currently, conventional water and wastewater treatment flushes valuable resources down the drain and leaves harmful contaminants behind. Great Lakes ReNEW, one of the National Science Foundation's Regional Innovation Engines, is transforming waste into wealth for the Great Lakes Region through investments in use-inspired R&D, commercialization of innovations to market, and workforce development. This presentation will provide an overview of the initiative as well as upcoming ways to partner and engage for researchers, utilities, startups, and industry.

This webinar is a part of Chicago Water Week Program and is offered at no charge. View other Chicago Water Week events [here](#).
