Learn More About How the Cuties Care™ Diapering Program Can Help Your Families and Program

We're changing the way child care centers manage supplies with our comprehensive Cuties Care™ diapering program.

Improve Outcomes

Instead of chasing parents to bring in extra diapers and wipes for their child's personal supply, Cuties Care™ allows your staff to focus on caring for children and improving outcomes, rather than managing inventory.

Impress Parents

Cuties® can save your families time—they no longer need to worry about bringing in supplies for their child, and money—they benefit from your community supply of our high quality diapering products.

Add Value & Profits

In addition to saving time for your staff, Cuties Care™ also helps your school to earn additional revenue by supplying Cuties® Complete Care Baby Diapers and Cuties® wipes for children in your care.

The Cuties Care™ diapering program is a PACCA Shared Services Member Benefit.
