TAC Luncheon - Implementing and Optimizing Chemical Phosphorus Removal at South Platte Colorado Dept. of Public Health & Environment Building B Room B1F 4300 Cherry Creek Drive South

Denver, CO 80246

12:00 PM - 01:15 PM MST Steve Polson, 3037480931 stpolson53@gmail.com

Luncheon Description: South Platte Renew (SPR) is the third largest WRRF in Colorado, with a capacity of 50 MGD. SPR has implemented a chemical phosphorus (Chem-P) removal process to achieve effluent TP below 1.0 mg/L for regulatory compliance and further for Voluntary Incentive Program credits. The SPR Engineering and Operations teams took a holistic and collaborative approach from design to operation for optimum Chem-P implementation with the following core objectives:

Operations: Assess plant operation impacts and implement a treatment process with operation flexibility designed for optimization.

Performance: Evaluate and select chemical addition strategies for reliability and optimum performance.

Costs: Minimize chemical addition costs while achieving optimum performance.

This presentation will discuss the methodology and lessons learned from SPR so that WRRFs can use that information to implement chemical P removal with flexibility for optimization targeting operations, performance, and costs. It also offers insight into optimization measures that WRRFs can implement on existing systems that rely on chemical P removal. The project is complete and full-scale results will be presented.

Presenters: Zeena Williss has over ten years of experience leading infrastructure and sustainability initiatives in the water, wastewater, and environmental engineering sectors and is currently the Engineering Manager at South Platte Renew. She was the project manager and led the optimization task for the Chemical Phosphorus Removal project at South Platte Renew. Shelley Trujillo is the Regional Wastewater Practice Leader for Stantec and has been working on wastewater projects for the last 25 years. She also has been a member of the TAC since 2017.

Registration ends on 11/18/2025.

December 11, 2025

LPC/RMWQAA Winter Social

The Backyard Sports Lounge

2841 W 120th Ave

Westminster, CO 80234

04:00 PM - 07:00 PM MST

Seirra Potter, 720-926-6169

spotter@englewoodco.gov

LPC and RMWQAA are hosting their Winter Social on Thursday, December 11th at The Backyard Sports Lounge in Westminster. Whether you are already a member or curious in learning what LPC is all about, please join in on the festive fun! This is one of the best opportunities of the year to catch up with colleagues and meet new members all while playing fun games and enjoying some refreshments.

LPC will be hosting a meeting prior to the start of the social. If you are interested in attending, the meeting will start promptly at 3 pm.

Please RSVP to Seirra Potter by the end of the day on December 8th so that we can provide the restaurant with a more accurate headcount.

December 12, 2025

December Board Meeting

South Platte Renew

2900 S Platte River Drive

Englewood, CO 80110

08:00 AM - 10:00 AM MST

Kristin Johansen,

Kristin.Johansen@stantec.com

Join us for the RMWEA December Board Meeting.

February 2, 2026 - February 6, 2026 **Water and Wastewater Fundamentals School**

Delta Marriott Northglenn

10 East 120th Ave

Northglenn, CO 80233

08:00 AM - 05:00 PM MST

Bob Dabkowski, 970.690.9299

bob@process-opt.com

The Water and Wastewater Fundamentals School is a basic, comprehensive overview for water and wastewater operators. The goal of the Fundamentals School is to provide education for operators, so they possess a better understanding of the water and wastewater fields. The courses are designed to furnish water professionals with basic concepts of how treatment processes work and the requirements of government regulations. It is designed to benefit those seeking Class "C," "D," "T," and "S" certifications.

February 5, 2026

IWT Annual Seminar

CSU Spur Campus - Hydro Building

4777 National Western Dr

Denver, CO

08:00 AM - 04:00 PM MST

Carolyn Coffey, Anna Scopp, 303-256-4095

iwt@rmwea.org

Save the Date!

The Innovative Water Technology committee will hold our annual seminar at CSU Spur Campus on February 5th, 2026.

April 5, 2026 - April 10, 2026 Water and Wastewater Intermediate & Advanced School

Delta Marriott Northglenn 10 East 120th Ave

Northglenn, CO 80233

08:00 AM - 05:00 PM MST

Bob Dabkowski, 970.690.9299

bob@process-opt.com

Elevate your expertise in water and wastewater treatment with the in-person, hands-on courses led by industry experts. Designed for water professionals eager to deepen their knowledge, this school allows attendees to ask personalized questions, exchange insights with peers, and immediately apply practical skills to their work. Come find out why people from all across North America attend this renowned school!

April 15, 2026

Collections Conference (1-Day Event)

City Park Recreation Center Community Room (Westminster)

10455 Sheridan Boulevard

Westminster, Co 80020

08:30 AM - 03:30 PM MST

Andrea Long, 7208594346

along@auroragov.org

RMWEA Collections Conference: Condition Assessment, Maintenance, Design, Construction, and Asset Management of sewer pipelines, lift stations and force mains. Join us and receive training units (TU's!) for the 1-Day Sewer Collections Conference, a comprehensive event bringing together sewer industry professionals to explore the latest advancements in the design, construction, maintenance, and operation of sewer collection systems. This dynamic conference will feature engaging keynote speakers, interactive panel discussions, and vendor exhibits showcasing innovative technologies and solutions. Whether you're an operator, engineer, contractor, or facility owner, this event provides an excellent opportunity to network, exchange ideas, and gain valuable insights into best practices and emerging trends in sewer collections. Don't miss this chance to elevate your expertise and stay at the forefront of industry innovation!
